Learning with Technologies – Booklist

The concept behind the Learning with Technology (LWT) project at Swan Christian College (previously BYOD) is to provide students with the opportunity for more personalised learning by having access to technology both at home and at school. This program aims to enable individual, differentiated learning for each student from Year 5 to Year 12 in 2017. All students in Years 5 – 12 are required to have a device and have access to a printer at home.

We seek to explore the opportunities of LWT in student's lifelong learning as well as preparing them for life with technology in the 21st Century.

The College has developed the following guide to assist parents in choosing the most appropriate device for their child this should be read in conjunction with the Learning with Technology Information Booklet available by accessing the following link: www.swan.wa.edu.au/our-schools/lwt-learningwithtechnology/
