

## Recommended Apps (Year 5 and 6)

All the apps below are free (please note where the name of the free version is indicated). Many of them have already been installed, so there should only be a few that need to be downloaded. In general, the apps chosen do have in-app advertising, if you do not wish your child to see advertising there is, on occasion, a chance to upgrade to a paid version.

Note that not all iPad apps are available on Android devices and there is no disadvantage to students.

If you have any concerns about this, then please contact Mr Smith at the Junior School.

### For iPads

#### Microsoft Apps

- OneDrive
- Word
- PowerPoint
- Excel

#### Apple Apps

*\*\*\* Note that some student's devices are too old to get the latest apps and so they may not be able to download them. There is a way around this by connecting to iTunes on a PC, but this is only if it is really needed. Also, Android devices may not have these apps*

- Keynote
- Pages
- Numbers
- Garage band

#### Planning Apps

- Popplet Lite (free) (upgrade to paid version option)
- Padlet (upgrade to paid version option)

#### Apps for Subscription sites

- LiteracyPlanet
- Vocabulary Spelling City
- Hotmaths

#### Bible

- YouVersion Bible

#### Miscellaneous

- A+ Spelling Test
- Edmodo
- Stile Education
- ShowMe
- Explain Everything
- Note taking apps – e.g. Notepad+

- Quizlet

## **For Android Devices**

### **Microsoft Apps**

- OneDrive
